# Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the tecrible school and pains, or that it is something like a skin disease to be rubbed away with hair most or drawn out with phases has been disease to be rubbed away with hair ment or drawn out with plasters; but Rhuematism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in mancles, joints and nerves, producing inflammation and soreness and the abarp, cutting

pains peculiar to this distressing disease. Exposure to bid weather or sudden Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true causes of Rheumatism, which are internal and not external.

Liniments, plasters and rubbing will sometimes reduce the inflammation and swelling and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble. S. S. S. cures Rheumatism because it attacks it in the blood.
